Start a Co-op: People of Faith Creating
an Inclusive Economy**

Faith communities in the U.S. and globally are part of a movement for a fair, equitable and democratic economy that prioritizes ecological, racial, and gender justice, and justice for all oppressed peoples.

Join the discussion to explore how the foundations for an inclusive economy are expressed through unique faith traditions. Strategize on how to shift from a system that puts profit before people and Earth to a system that celebrates and respects the diversity of all living beings.

- Learn why this is a multi-faith movement.
- Hear and share about creative economic alternatives such as worker-owned co-ops, locally-driven food systems and renewable energy projects, co-ops, community loan funds, and alternative currencies.
- Find a deeper sense of connection with people of all faiths and explore opportunities for future collaboration.
