

Dr. Mary Evelyn Tucker

"An Ecological Vision of Peace: Journey of the Universe"

A powerful and eloquent voice, Mary Evelyn Tucker, evolutionary thinker, brings her integrated, ethical response to the challenge of today's environmental crises and the relationship between religious world views and environmental justice.

"The key challenge is the environment. If religions don't speak to the fact that life is sacred, in all its forms and how we have emerged out of a vast process—then religions are going to lose their own relevance."
