ECOLOGY AND JUSTICE

An Orbis Series on Integral Ecology

ADVISORY BOARD MEMBERS

Mary Evelyn Tucker, John A. Grim, Leonardo Boff, Sean McDonagh

This series on integral ecology publishes books seeking to integrate an understanding of Earth's interconnected life systems with sustainable social, political, and economic systems that enhance the Earth community. Books in the series concentrate on ways to:

- Re-examine human-Earth relations in light of contemporary cosmological and ecological science
- Develop visions of common life marked by ecological integrity and social justice
- Expand on the work of those exploring such fields as integral ecology, climate justice, Earth law, ecofeminism, and animal protection
- Promote inclusive, participatory strategies that enhance the struggle of Earth's poor and oppressed for ecological justice
- Deepen appreciation for dialogue within and among religious traditions on issues of ecology and justice
- Encourage spiritual discipline, social engagement, and the transformation of religion and society towards these ends

Viewing the present moment as a time for fresh creativity and inspired by the encyclical Laudato Si, the series seeks authors who speak to eco-justice concerns and who bring into this dialogue perspectives from the Christian communities, from the world's religions, from secular and scientific circles, or from new paradigms of thought and action.
