

Dr. Iyad Abumoghli

Dr. Iyad Abumoghli is the director of the United Nations Environment Programme (UNEP) Faith for Earth Initiative. He leads the regional team of UNEP West Asia in identifying and assessing relevant needs, priorities, trends, developments, and policies at the national, sub-regional, and regional levels, in order to incorporate them into UNEP policy and programme development. Identify and build/strengthen strategic partnerships at all levels, both with West Asia Governments, the private sector and civil society at large to mobilize support for sound environmental action. Represent the Organization at international, regional, inter-agency meetings, seminars and conferences.

Dr. Abumoghli has senior level expertise in sustainable development, environment, innovation and knowledge management. Strong knowledge in strategic planning, visioning and programme implementation and oversight working with local, national, regional and international organizations. He has twenty seven years of experience with the private sector, scientific and international organizations on sustainable development, water resources management and Environmental Impact Assessment. Before joining UNEP, he served 14 years in UNDP in a number of positions starting as Assistant Resident Representative for programmes in Jordan, then as the Global Practice Manager of the Energy and Environment Group in New York.

He worked as a Senior Policy Adviser on Environment and as a Knowledge Management Team Leader and head of Innovation unit at the Regional Center in Cairo. Having served in a diverse development domains, Iyad adopts a holistic multi-sectoral approach to development ensuring cross-thematic integration with internal and external partners.

Dr. Abumoghli holds a Doctorate degree in Bio-Chemical Engineering from the University of Bath/UK, an outstanding graduate of the Virtual Development Academy – John Hopkins University, and a BA in Chemical Engineering from University of Jordan.
