VANDANA SHIVA

Physicist, ecologist, activist, editor, and author of numerous books, Vandana Shiva is a tireless defender of the environment. She is the founder of Navdanya, a movement for biodiversity conservation and farmers’ rights, Director of the Foundation for Science, Technology and Ecology, and Board Member of the International Forum on Globalization.

RICHARD FALK

Richard Falk is Alfred G. Milbank Professor Emeritus of International Law and Practice at Princeton University, where he taught for more than forty years. He was United Nations Special Rapporteur on Human Rights in Occupied Palestine (2008-14), and has served on scores of Commissions on International Law and Justice.

TOWARDS A JUST AND ECOLOGICALLY SUSTAINABLE PEACE

Navigating the Great Transition

This new book develops a holistic approach to countering violence that integrates notions of peace, justice and care of the Earth. It identifies the principles that can guide a shift from Just War to Just Peace, theoretically and in practice. It sets out the steps for a shift to a Just and Ecologically Sustainable Peace by bringing together contributions by Indigenous scholars, international relations experts, peace studies and nonviolence specialists, and ecological feminists.

Authors will be in attendance and the book will be launched by
