This workshop invites our felt sense of living in deep time and being our ancestor's gifts for *this* time. It offers an opportunity to be in touch with your gifts from your tradition, teachers and family, from Earth, and from your own experiences. It also invites a surrender to the cultivation of deep time and the gifts that can arise from this because we are future ancestors. The workshop includes an immersion in a handheld Chartres style finger labyrinth walk and meditation that takes around 6 minutes. There will be a breakout group to meet others, and opportunities to process your experience of our online time together.

Contact Judith by March 1 for further information, the schedule of the session and a checklist of what you will need to bring. Zoom details will be emailed. LIMIT: 15 participants. COST: \$AUD/USD10 .
